Introduction to the BCSC	xvii
Objectives	1
1 Social Determinants of Health	3
Highlights	3
Introduction	3
Categories of Social Determinants of Health	5
Health Care System	5
Economic Stability	7
Education	7
Neighborhood and Physical Environment	8
Food	8
Community and Social Context	8
Discrimination and Social Determinants of Health	8
Race and Ethnicity	9
Sex and Gender	9
Sexual Orientation and Gender Identity	10
Age and Disability	10
Approaches to Addressing Social Determinants of Health	10
2 Using Research to Improve Clinical Practice	13
Highlights	13
Researching Answers to Clinical Questions	13
Sources of Information	13
Data Fundamentals	14
Critical Reading of Studies	15
Understanding Study Design	20
Case Reports	20
Case Series	20
Case-Control Studies	24
Cross-Sectional Studies	24
Cohort Studies	24
Clinical Trials	26
Real-World Studies	26
Systematic Reviews and Meta-analyses of Clinical Trials	27
Interpreting Diagnostic and Screening Tests	27
The Straightforward Case	28
Complicating Features	30
Summary	34

Discussing Benefits, Risks, Probabilities, and Expected Outcomes With Patients	34
Risk Differences and Probability.	34
Number Needed to Treat	35
Odds Ratios	35
Risk Calculators	35
How to Measure and Improve Clinical Practice	36
Using Big Data to Improve Clinical Practice	36
Issues in Designing a Measurement System	37
Implementation of a Monitoring System	38
Analysis of the Results	40
Methods of Presenting Data to Facilitate Continuous Improvement	40
Other Features of Continuous Quality Improvement	43
Evidence-Based Medicine	43
Summary	44
3 Endocrine Disorders	45
Highlights	45
Diabetes Mellitus	45
Classification of Diabetes.	45
Diagnosis of Diabetes	46
Reduction of Risk for Diabetes	47
Treatment	48
Complications of Diabetes	50
Thyroid Disease	53
Physiology	53
Tests of Thyroid Function	54
Hyperthyroidism	55
Hypothyroidism	56
Thyroiditis	57
Thyroid Tumors	58
Disorders of the Hypothalamic-Pituitary Axis	58
Pituitary Adenomas	59
Pituitary Apoplexy	60
Multiple Endocrine Neoplasia Syndromes	61
4 Hypertension	63
Highlights	63
Introduction	63
Classification of Blood Pressure and Diagnosis of Hypertension.	64
Etiology and Pathogenesis of Hypertension.	65
Evaluation of Patients With Hypertension	67
Treatment of Hypertension.	68
Lifestyle Modifications.	68
Pharmacologic Treatment	68
Future Treatments and Targets for Hypertension.	75

Special Considerations	76
Ischemic Heart Disease	76
Heart Failure	76
Diabetes and Hypertension	76
Chronic Renal Disease	77
Cerebrovascular Disease	77
Obesity and Metabolic Syndrome	77
Obstructive Sleep Apnea Syndrome	77
Left Ventricular Hypertrophy	77
Peripheral Arterial Disease	78
Orthostatic Hypotension	78
Hypertension in Older Patients	78
Women and Pregnancy	79
Children and Adolescents	79
Withdrawal Syndromes	80
Monoamine Oxidase Inhibitor Drug and Food Interactions	80
Hypertensive Crisis	80
5 Hyperlipidemia and Cardiovascular Risk	83
Highlights	83
Introduction	83
Lipoproteins, Cholesterol, and Cardiovascular Disease	84
Risk Assessment	84
Management	86
Lifestyle Modification	86
The Role of Statins	87
Other LDL-Lowering Drugs	88
Metabolic Syndrome	89
6 Acquired Heart Disease	93
Highlights	93
Ischemic Heart Disease	93
Pathophysiology	93
Risk Factors for Coronary Heart Disease	94
Clinical Syndromes	94
Noninvasive Cardiac Diagnostic Procedures	98
Invasive Cardiac Diagnostic Procedures	100
Management of Ischemic Heart Disease	101
Congestive Heart Failure	107
Classification	107
Symptoms	108
Clinical Signs	108
Diagnostic Evaluation	109
Etiology	109
Medical and Nonsurgical Management	110
Invasive or Surgical Management	112

Disorders of Cardiac Rhythm	112
Bradyarrhythmias and Conduction Disturbances	113
Premature Contractions	113
Tachyarrhythmias	114
7 Cerebrovascular Disease	119
Highlights	119
Introduction	119
Cerebral Ischemia	120
Transient Cerebral Ischemia	120
Ischemic Stroke	120
Diagnosis and Assessment	121
Management of Cerebral Ischemia.	123
Postacute Management	124
Carotid Occlusive Disease	125
Diagnostic Imaging for Carotid Stenosis	125
Management of Carotid Stenosis	126
Intracranial Hemorrhage	130
Intracerebral Hemorrhage	130
Intraventricular Hemorrhage	130
Subarachnoid Hemorrhage	131
8 Pulmonary Diseases	133
Highlights	133
Introduction	133
Obstructive Lung Diseases	133
Restrictive Lung Diseases	135
Evaluation	136
Treatment	136
Nonpharmacologic Treatment	136
Pharmacologic Treatment	137
Pulmonary Aspects of COVID-19.	139
9 Hematologic Disorders	141
Highlights	141
Blood Composition	141
Erythropoiesis	141
Anemia	142
Anemia Due to Blood Loss or Nutritional Deficiency	142
Anemia Due to Defective Hemoglobin Synthesis (Hemoglobinopathies)	144
Anemia Due to Destruction of Red Blood Cells	146
Anemia Due to Inflammation and Chronic Disease	147
Anemia Due to Bone Marrow Disorders	147
Disorders of Hemostasis	148
Laboratory Evaluation of Hemostasis and Blood Coagulation	149
Clinical Manifestations of Hemostatic Abnormalities	150
Vascular Disorders	150

Platelet Disorders	151
Disorders of Blood Coagulation	154
Primary Hypercoagulable States	157
Secondary Hypercoagulable States	159
10 Rheumatic Disorders	161
Highlights	161
Introduction	161
Rheumatoid Arthritis	161
Extra-articular Manifestations	162
Laboratory Testing	163
Treatment	163
Spondyloarthritis	164
Ankylosing Spondylitis	164
Reactive Arthritis	165
Enteropathic Arthritis	165
Psoriatic Arthritis	166
Juvenile Idiopathic Arthritis	167
Systemic Lupus Erythematosus	168
Clinical Findings	168
Diagnosis	170
Treatment	170
Sarcoidosis	172
Clinical Findings	172
Diagnosis	172
Treatment	173
Antiphospholipid Syndrome	173
Clinical Findings	173
Diagnosis	174
Treatment	174
Systemic Sclerosis	174
Clinical Findings	175
Diagnosis	176
Treatment	176
Sjögren Syndrome	176
Polymyositis and Dermatomyositis	177
Polymyalgia Rheumatica	178
Relapsing Polychondritis	178
Vasculitis	179
Large-Vessel Vasculitis	179
Medium-Sized-Vessel Vasculitis	181
Small-Vessel Vasculitis	181
Variable-Vessel Vasculitis	183
COVID-19 and Rheumatic Disease	184
Medical Therapy for Rheumatic Disorders	185
Corticosteroids	185
Nonsteroidal Anti-inflammatory Drugs	186
Disease-Modifying Antirheumatic Drugs	187

11	Geriatrics	193
	Highlights	193
	Introduction	193
	The Aging Eye: Physiologic Changes and Pathologic Findings	194
	Psychology of Aging	195
	Depression	195
	Alzheimer Disease and Dementia	197
	Special Topics	197
	Elder Abuse	197
	Osteoporosis	199
	Falls	200
	Perioperative Considerations in the Management of Older Adult Patients	201
12	Behavioral and Neurologic Disorders	203
	Highlights	203
	Introduction	203
	Behavioral Disorders	204
	Mood Disorders Associated With Medical Conditions	204
	Mood (Affective) Disorders	205
	Somatization, Anxiety, and Stress-Related Disorders	206
	Personality Disorders	208
	Schizophrenia	208
	Eating Disorders	209
	Substance Use Disorders	209
	Mandatory Reporting of Abuse and Neglect	210
	Pharmacologic Treatment of Psychiatric Disorders	210
	Antipsychotic Drugs	210
	Antianxiety and Hypnotic Drugs	212
	Neurologic Disorders	215
	Parkinson Disease	215
	Multiple Sclerosis	217
	Epilepsy	217
	Stroke	219
	Alzheimer Disease and Dementia	219
	Prion-Associated Neurologic Disorders	221
	Informed Consent in Patients With Behavioral or Neurologic Disorders	222
13	Preventive Medicine	223
	Highlights	223
	Screening Procedures	223
	Cardiovascular Diseases	224
	Cancer	225
	Infectious Diseases	232
	Immunization	233
	Hepatitis	234

Influenza	237
Varicella-Zoster	237
Measles, Mumps, and Rubella	238
Polio	239
Tetanus, Diphtheria, and Pertussis	239
Rotavirus	240
Pneumococcal Pneumonia	240
<i>Haemophilus influenzae</i>	241
Meningococcus	241
Human Papillomavirus	242
Malaria	242
COVID-19 (SARS-CoV-2)	242
Travel Immunizations	243
New and Future Vaccines	244
14 Cancer	245
Highlights	245
Introduction	245
Etiology	246
Genetic and Environmental Factors	246
Radiation	246
Viruses	246
Familial Cancers	247
Staging	248
Treatment	248
Surgical Management	248
Radiation Therapy	248
Chemotherapy	251
Angiogenesis Inhibitors	252
Biologic Therapies	252
15 Infectious Diseases	255
Highlights	255
General Immunology	255
Bacterial Infections	256
<i>Staphylococcus</i>	256
<i>Streptococcus</i>	257
<i>Clostridioides difficile</i>	258
<i>Haemophilus influenzae</i>	260
<i>Pseudomonas aeruginosa</i>	260
<i>Borrelia burgdorferi</i>	261
<i>Mycoplasma pneumoniae</i>	262
<i>Neisseria</i>	262
<i>Chlamydia trachomatis</i>	263
<i>Treponema pallidum</i>	264
Mycobacteria	266
Fungal Infections	267

Parasitic Infection 268
Toxoplasma 268
 Viral Infections 269
 Herpesvirus 269
 COVID-19 (SARS-CoV-2) 272
 Influenza 273
 Hepatitis 273
 Human Papillomavirus 274
 Ebola Virus 274
 Zika Virus 275
 Human Immunodeficiency Virus 276
 Update on Antibiotics 280
 Antibacterial Agents 280
 Antifungal Agents 287
 Antiviral Agents 288

16 Perioperative Management in Ocular Surgery 291

Highlights 291
 Introduction 291
 Preoperative Assessment 291
 Children and Adolescents 293
 Management of Medical Conditions Associated
 With Increased Perioperative Risk 294
 Cardiovascular Disease 294
 Diabetes 295
 Respiratory Diseases 295
 Liver Disease 296
 Perioperative Medication Management 296
 Cardiac Medications 296
 Diabetes Medications 298
 Pulmonary Medications 298
 Perioperative Considerations 298
 Preoperative Fasting 298
 Latex Allergy 299
 Universal Protocol 299
 Intraoperative Considerations 300
 Systemic Anesthetic Agents 300
 Local Anesthetic Agents 302
 Malignant Hyperthermia 303
 Prevention of Intraoperative Fire 305

17 Medical Emergencies and Adverse Effects of Ophthalmic and Systemic Medications 307

Highlights 307
 Introduction 307
 Cardiopulmonary Arrest 308
 Syncope 312

Hypoglycemia	312
Shock	313
Classification	313
Assessment	313
Treatment	314
Anaphylaxis	314
Seizures and Status Epilepticus	316
Toxic Reactions to Local Anesthetic Agents and Other Drugs	317
Opioid Overdose	319
Adverse Effects of Ophthalmic and Systemic Medications	320
Additional Materials and Resources	325
Requesting Continuing Medical Education Credit	327
Study Questions	329
Answers	337
Index	343
