Introduction to the BCSC	xv
Objectives	1
1 Introduction to Glaucoma	3
Highlights	3
Optic Nerve Anatomy	3
Blood Supply to the Optic Nerve	5
Pathophysiology	7
Classification.	10
Open Angle	12
Angle Closure	12
Combined Mechanism.	13
Epidemiology	14
Primary Open-Angle Glaucoma.	14
Primary Angle-Closure Glaucoma.	15
Genetics.	16
Juvenile Open-Angle Glaucoma	16
Familial Normal-Tension Glaucoma	17
Primary Congenital Glaucoma	17
Axenfeld-Rieger Syndrome	18
Aniridia	18
Genome-Wide Association Studies	18
Pseudoexfoliation Syndrome	18
Genetic Testing	19
Environmental and Other Factors in Glaucoma	19
2 Intraocular Pressure and Aqueous Humor Dynamics	21
Highlights	21
Aqueous Humor Production, Composition, and Outflow.	21
Aqueous Humor Production and Composition	21
Suppression of Aqueous Humor Formation	24
Aqueous Humor Outflow	24
Aqueous Humor Dynamics	27
Measurement of Aqueous Humor Production.	27
Measurement of Outflow Facility	28
Measurement of Episcleral Venous Pressure.	29
Measurement of Uveoscleral Outflow Rate	29
Intraocular Pressure	30
IOP Distribution and Relation to Glaucoma	30
Variations in IOP	31

Clinical Measurement of IOP.	33
Tonometry	33
Tactile Tension	39
3 Clinical Evaluation: History	41
Highlights	41
Importance of the Patient History.	41
Relevant Factors	41
Quality of Life	44
Social Determinants of Health	44
4 Clinical Evaluation and Imaging of the Anterior Segment	45
Highlights	45
Refractive Error	45
Ocular Adnexa	45
Pupillary Function	46
Slit-Lamp Biomicroscopy	47
Conjunctiva	47
Episclera and Sclera	48
Cornea	49
Anterior Chamber.	49
Iris	50
Lens.	50
Gonioscopy	51
Direct and Indirect Gonioscopy.	51
Gonioscopic Assessment and Documentation.	54
Anterior Segment Imaging.	60
Ultrasound Biomicroscopy	60
Anterior Segment Optical Coherence Tomography	61
Specular Microscopy	63
5 Clinical Evaluation and Imaging of the Posterior Segment: Optic Nerve Head, Retinal Nerve Fiber Layer, and Macula	65
Highlights	65
Clinical Examination of the Optic Nerve Head and Retinal Nerve Fiber Layer	65
Optic Nerve Head.	65
Retinal Nerve Fiber Layer	70
Atypical Optic Nerves	71
Documentation of Optic Nerve Findings	72
Quantitative Imaging of the Retinal Nerve Fiber Layer, Optic Nerve Head, and Macula Using Optical Coherence Tomography	73
Assessment of Image and Segmentation Quality	74
Evaluation of the Retinal Nerve Fiber Layer.	74
Evaluation of the Optic Nerve Head	76

	Evaluation of the Macular Ganglion Cell Layer	76
	Detection of Glaucoma	77
	Detection of Glaucoma Progression	80
	Imaging of the Lamina Cribrosa	84
	Optical Coherence Tomography Angiography	85
6	Perimetry.	87
	Highlights	87
	Introduction	87
	Basic Principles of Automated Perimetry.	88
	Testing Strategies	89
	Patterns of Test Points	90
	Factors Affecting Perimetry Results	92
	Patient.	92
	Perimetrist	92
	Other Factors.	92
	Evaluation and Interpretation of Visual Field Results	92
	Test Reliability	93
	Normality or Abnormality of the Visual Field	93
	Artifacts	96
	Patterns of Visual Field Loss in Glaucoma	97
	Interpretation of a Series of Visual Field Tests and Detection of Visual Field Progression	99
	Frequency of Testing	105
	Structure and Function Relationship.	106
	Other Perimetric Tests	107
7	Primary Open-Angle Glaucoma.	109
	Highlights	109
	Primary Open-Angle Glaucoma	109
	Clinical Features	109
	Atypical Findings	110
	Risk Factors	111
	Association With Systemic Conditions	114
	Prognosis and Therapy.	115
	The Glaucoma Suspect	115
	Ocular Hypertension	116
	Open-Angle Glaucoma Without Elevated IOP	117
	Risk Factors and Clinical Features	118
	Differential Diagnosis	119
	Diagnostic Evaluation	119
	Prognosis and Therapy.	120
8	Secondary Open-Angle Glaucoma	129
	Highlights	129
	Secondary Open-Angle Glaucoma	129
	Pseudoexfoliation Syndrome	129
	Pigment Dispersion Syndrome	132

	Lens-Induced Glaucoma	134
	Glaucoma Secondary to Intraocular Tumors	136
	Ocular Inflammation and Secondary Glaucoma	138
	Elevated Episcleral Venous Pressure	140
	Trauma and Surgery	142
	Schwartz-Matsuo Syndrome	148
	Drugs and Glaucoma	148
9	Primary Angle-Closure Disease	151
	Highlights	151
	Introduction	151
	Pathogenesis and Pathophysiology	153
	Pupillary Block	153
	Plateau Iris and Iris-Induced Angle Closure	154
	The Role of Medications in Angle Closure	154
	Risk Factors	155
	Race and Ethnicity	155
	Ocular Biometrics	156
	Age	156
	Sex	156
	Family History and Genetics	157
	Refractive Error	157
	The Primary Angle-Closure Disease Spectrum	157
	Primary Angle-Closure Suspect	157
	Primary Angle Closure	161
	Primary Angle-Closure Glaucoma	161
	Symptomatic Primary Angle Closure	162
	Plateau Iris as a Mechanism of Angle Closure	164
	Management	166
10	Secondary Angle Closure	167
	Highlights	167
	Introduction	167
	Secondary Angle Closure With Pupillary Block	167
	Lens-Induced Angle Closure	168
	Secondary Angle Closure Without Pupillary Block	172
	Conditions Associated With a Pulling Mechanism	172
	Conditions Associated With a Pushing Mechanism	178
	Conditions Associated With Combined Pushing and Pulling or Other Mechanisms	184
11	Glaucoma in Children and Adolescents	187
	Highlights	187
	Classification	187
	Genetics	188
	Primary Congenital Glaucoma	190
	Pediatric Glaucoma Without Anterior Segment Dysgenesis	191
	Pediatric Glaucoma With Anterior Segment Dysgenesis	192

Primary Congenital Glaucoma	192
Incidence	192
Pathophysiology	192
Clinical Features	193
Differential Diagnosis	193
Treatment and Prognosis	194
Juvenile Open-Angle Glaucoma	196
Secondary Glaucomas Associated With Nonacquired Conditions	196
Axenfeld-Rieger Syndrome	196
Peters Anomaly	197
Aniridia	199
Sturge-Weber Syndrome	200
Other Nonacquired Conditions Associated With Secondary Glaucoma	201
Secondary Glaucomas Associated With Acquired Conditions	202
Glaucoma Following Cataract Surgery	203
Evaluating the Pediatric Glaucoma Patient	203
History	204
Visual Acuity	204
External Examination	205
Anterior Segment Examination	205
Tonometry	206
Pachymetry	206
Gonioscopy	207
Optic Nerve and Fundus Evaluation	208
Visual Field Testing	209
A-Scan Ultrasonography	209
Other Testing	210
Treatment Overview	210
Surgical Management	210
Medical Management	214
Prognosis and Follow-Up	216

12 Medical Management of Glaucoma and Ocular

Hypertension	219
Highlights	219
Introduction	219
Prostaglandin Analogues	221
Mechanism of Action	221
Available Agents	227
Adverse Effects	227
Sustained-Release Bimatoprost Implant	229
Adrenergic Drugs	229
β -Adrenergic Antagonists	229
Adrenergic Agonists	231
Carbonic Anhydrase Inhibitors	232
Mechanism of Action	232

Available Agents	233
Adverse Effects and Contraindications	233
Parasympathomimetic Agents	234
Mechanism of Action	235
Adverse Effects	235
Rho Kinase Inhibitors	235
Mechanism of Action	235
Available Agents	236
Adverse Effects	236
Combined Medications	237
Hyperosmotic Agents	237
General Approach to Medical Treatment	239
Long-Term Therapy	239
Glaucoma Medications and Ocular Surface Disease	240
Therapy for Acute Intraocular Pressure Elevation	240
Administration of Ocular Medications	241
Use of Glaucoma Medications During Pregnancy or While Breastfeeding	241
Generic Medications	242
Patient Adherence to a Medication Regimen	243

13 Surgical Therapy for Glaucoma 245

Highlights	245
Introduction	245
Laser Trabeculoplasty	246
Mechanism of Action	248
Indications and Contraindications	248
Technique	248
Postoperative Care	249
Complications	250
Efficacy	250
Cyclophotocoagulation	251
Mechanism of Action	251
Indications and Contraindications	252
Technique	252
Postoperative Care	253
Complications	253
Efficacy	253
Laser Peripheral Iridotomy	254
Mechanism of Action	254
Indications and Contraindications	255
Technique	255
Postoperative Care	255
Complications	256
Efficacy	256
Laser Iridoplasty	257
Mechanism of Action	257
Indications and Contraindications	257

Technique	258
Postoperative Care	258
Complications	258
Efficacy	258
Trabeculectomy	258
Mechanism of Action	258
Indications and Contraindications	259
Technique	260
Antifibrotic Agents in Trabeculectomy	265
Postoperative Complications and Management	265
Plate-Based Tube Shunt Surgery	274
Mechanism of Action	274
Indications and Contraindications	274
Technique	276
Postoperative Management	276
Cataract Surgery in Patients With Glaucoma	280
Ocular Hypertension	280
Primary Open-Angle Glaucoma	280
Angle-Closure Glaucoma	281
Cataract Surgery in Combination With Glaucoma Surgery	281
Other Glaucoma Surgeries	282
Microinvasive Glaucoma Surgeries	282
Short Aqueous Stent Placement in the Subconjunctival Space	286
Nonpenetrating Glaucoma Surgery	287
Special Patient Considerations	288
Sustainability and Glaucoma Surgery	289
Additional Materials and Resources	291
Requesting Continuing Medical Education Credit	293
Study Questions	295
Answers	303
Index	311
