

Contents

General Introduction	xv
Objectives	1
1 Using Research to Improve Clinical Practice.	3
Highlights	3
Researching Answers to Clinical Questions	3
Critical Reading of Studies	4
Understanding Study Design	8
Case Reports	9
Case Series	9
Case-Control Studies	10
Cross-Sectional Studies	12
Cohort Studies	12
Clinical Trials	13
Systematic Reviews and Meta-analyses of Clinical Trials	14
Interpreting Diagnostic and Screening Tests	15
The Straightforward Case	15
Complicating Features	16
Summary	21
Discussing Benefits, Risks, Probabilities, and Expected Outcomes With Patients	22
How to Measure and Improve Clinical Practice	23
Using Big Data to Improve Clinical Practice.	23
Issues in Designing a Measurement System	24
Implementation of a Monitoring System	25
Analysis of the Results	27
Methods of Presenting Data to Facilitate Continuous Improvement	28
Other Features of Continuous Quality Improvement	28
Using Lean Techniques to Improve Clinical Practice	31
Summary	32
2 Endocrine Disorders	33
Highlights	33
Diabetes Mellitus	33
Classification of Diabetes Mellitus	33
Diagnosis of Diabetes Mellitus	34
Reduction of Risk for Diabetes Mellitus	35
Treatment	36
Complications of Diabetes Mellitus	38

Thyroid Disease	41
Physiology	41
Tests of Thyroid Function	41
Hyperthyroidism	43
Hypothyroidism	44
Thyroiditis	45
Thyroid Tumors	46
Disorders of the Hypothalamic-Pituitary Axis	46
Pituitary Adenomas	47
Pituitary Apoplexy	49
Multiple Endocrine Neoplasia Syndromes	49
3 Hypertension	51
Highlights	51
Introduction	51
Classification of Blood Pressure and Diagnosis of Hypertension	52
Etiology and Pathogenesis of Hypertension	53
Evaluation of Patients With Hypertension	55
Treatment of Hypertension	56
Lifestyle Modifications	57
Pharmacologic Treatment	57
Future Treatments and Targets for Hypertension	64
Special Considerations	65
Ischemic Heart Disease	65
Heart Failure	65
Diabetes Mellitus and Hypertension	65
Chronic Renal Disease	65
Cerebrovascular Disease	66
Obesity and Metabolic Syndrome	66
Obstructive Sleep Apnea Syndrome	66
Left Ventricular Hypertrophy	66
Peripheral Arterial Disease	66
Orthostatic Hypotension	67
Hypertension in Older Patients	67
Women and Pregnancy	67
Children and Adolescents	68
Withdrawal Syndromes	68
Hypertensive Crisis	69
4 Hyperlipidemia and Cardiovascular Risk	71
Highlights	71
Introduction	71
Lipoproteins, Cholesterol, and Cardiovascular Disease	72
Risk Assessment	72
Management	74
The Role of Statins	76
Metabolic Syndrome	77

5	Acquired Heart Disease	81
	Highlights	81
	Ischemic Heart Disease	81
	Pathophysiology	81
	Risk Factors for Coronary Heart Disease	82
	Clinical Syndromes	82
	Noninvasive Cardiac Diagnostic Procedures	86
	Invasive Cardiac Diagnostic Procedures	89
	Management of Ischemic Heart Disease	89
	Congestive Heart Failure	95
	Classification	95
	Symptoms	95
	Clinical Signs	97
	Diagnostic Evaluation	97
	Etiology	98
	Medical and Nonsurgical Management	98
	Invasive or Surgical Management	100
	Disorders of Cardiac Rhythm	101
	Bradyarrhythmias and Conduction Disturbances	101
	Premature Contractions	101
	Tachyarrhythmias	102
6	Cerebrovascular Disease	109
	Highlights	109
	Introduction	109
	Cerebral Ischemia	110
	Transient Cerebral Ischemia	110
	Ischemic Stroke	110
	Diagnosis and Management	111
	Carotid Occlusive Disease	115
	Diagnostic Evaluation	116
	Management of Carotid Stenosis	116
	Intracranial Hemorrhage	120
	Intracerebral Hemorrhage	120
	Intraventricular Hemorrhage	120
	Subarachnoid Hemorrhage	121
7	Pulmonary Diseases	123
	Highlights	123
	Introduction	123
	Obstructive Lung Diseases	123
	Restrictive Lung Diseases	125
	Evaluation	125
	Treatment	126
	Nonpharmacologic Treatment	126
	Pharmacologic Treatment	127

8	Hematologic Disorders	131
	Highlights	131
	Blood Composition	131
	Erythropoiesis	131
	Anemia	132
	Anemia Due to Blood Loss or Nutritional Deficiency	132
	Anemia Due to Defective Hemoglobin Synthesis (Hemoglobinopathies)	134
	Anemia Due to Destruction of Red Blood Cells	136
	Anemia Due to Inflammation and Chronic Disease	137
	Anemia Due to Bone Marrow Disorders	137
	Disorders of Hemostasis	138
	Laboratory Evaluation of Hemostasis and Blood Coagulation	139
	Clinical Manifestations of Hemostatic Abnormalities	140
	Vascular Disorders	140
	Platelet Disorders	141
	Disorders of Blood Coagulation	144
	Primary Hypercoagulable States	146
	Secondary Hypercoagulable States	148
9	Rheumatic Disorders	151
	Highlights	151
	Introduction	151
	Rheumatoid Arthritis	152
	Extra-articular Manifestations	152
	Laboratory Testing	153
	Treatment	153
	Spondyloarthritis	154
	Ankylosing Spondylitis	154
	Reactive Arthritis	155
	Enteropathic Arthritis	156
	Psoriatic Arthritis	156
	Juvenile Idiopathic Arthritis	157
	Systemic Lupus Erythematosus	158
	Signs and Symptoms	158
	Diagnosis	160
	Treatment	161
	Sarcoidosis	162
	Signs and Symptoms	162
	Diagnosis	162
	Treatment	163
	Antiphospholipid Syndrome	163
	Signs and Symptoms	163
	Diagnosis	163
	Treatment	164
	Systemic Sclerosis	164
	Signs and Symptoms	164

Diagnosis	165
Treatment	165
Sjögren Syndrome	166
Polymyositis and Dermatomyositis	167
Polymyalgia Rheumatica	168
Relapsing Polychondritis	168
Vasculitis	169
Large-Vessel Vasculitis	170
Medium-Sized-Vessel Vasculitis	170
Small-Vessel Vasculitis	171
Variable-Vessel Vasculitis	173
Medical Therapy for Rheumatic Disorders	174
Corticosteroids	174
Nonsteroidal Anti-inflammatory Drugs	176
Disease-Modifying Antirheumatic Drugs	176

10 Geriatrics 183

Highlights	183
Introduction	183
Physiologic Aging and Pathologic Findings of the Aging Eye	184
Elder Abuse	185
Perioperative Considerations in the Management of Elderly Patients	187
Psychology of Aging	188
Depression	188
Alzheimer Disease and Dementia	190
Osteoporosis	190
Falls	191

11 Behavioral and Neurologic Disorders 193

Highlights	193
Introduction	193
Behavioral Disorders	194
Behavioral Disorders Associated With Medical Conditions	194
Schizophrenia	194
Mood Disorders	195
Somatization, Anxiety, and Stress-Related Disorders	196
Substance Abuse Disorders	198
Pharmacologic Treatment of Psychiatric Disorders	199
Antipsychotic Drugs	199
Antianxiety and Hypnotic Drugs	201
Neurologic Disorders	204
Parkinson Disease	204
Multiple Sclerosis	206
Epilepsy	206
Stroke	209
Alzheimer Disease and Dementia	209
Prion-Associated Neurologic Disorders	211
Informed Consent in Patients with Behavioral and Neurologic Disorders	211

12	Preventive Medicine	213
	Highlights	213
	Screening Procedures	213
	Cardiovascular Diseases	214
	Cancer	215
	Infectious Diseases	222
	Immunization	223
	Hepatitis	224
	Influenza	226
	Varicella-Zoster	227
	Measles	228
	Mumps	228
	Rubella	229
	Polio	229
	Tetanus and Diphtheria	229
	Rotavirus	230
	Pneumococcal Pneumonia	230
	Meningococcus	231
	Human Papillomavirus	231
	Travel Immunizations	232
	New and Future Vaccines	232
13	Cancer	235
	Highlights	235
	Introduction	235
	Etiology	235
	Radiation Therapy	237
	Chemotherapy	239
	Angiogenesis Inhibitors	241
	Biologic Therapies	241
14	Infectious Diseases	245
	Highlights	245
	General Microbiology	245
	<i>Staphylococcus</i>	246
	<i>Streptococcus</i>	247
	<i>Clostridium difficile</i>	249
	<i>Haemophilus influenzae</i>	249
	<i>Neisseria</i>	250
	<i>Pseudomonas aeruginosa</i>	251
	<i>Treponema pallidum</i>	252
	Diagnosis	252
	Management	253
	<i>Borrelia burgdorferi</i>	254
	Stages	254
	Diagnosis	254
	Management	255

Chlamydia trachomatis 255
Mycoplasma pneumoniae 256
Mycobacteria 256
 Tuberculosis 256
Fungal Infections 258
Toxoplasma 258
Herpesvirus 259
 Herpes Simplex 260
 Varicella-Zoster 260
 Cytomegalovirus 261
 Epstein-Barr Virus 262
Influenza 262
Hepatitis. 262
 Hepatitis A and B 262
 Hepatitis C and Other Forms of Hepatitis 263
Human Papillomavirus 264
Ebola Virus 264
Zika Virus 265
Human Immunodeficiency Virus 266
 Etiology and Pathogenesis 266
 Clinical Syndromes 267
 Diagnosis 267
 Treatment 268
 Immune Reconstitution Inflammatory Syndrome 269
Update on Antibiotics 270
 Antibacterial Agents 270
 Future Directions 276
 Antifungal Agents 277
 Antiviral Agents 277

15 Perioperative Management in Ocular Surgery. 281

Highlights 281
Introduction 281
Preoperative Assessment. 281
 Children and Adolescents 283
Management of Medical Conditions Associated with Increased
 Perioperative Risk 283
 Cardiovascular Disease 283
 Diabetes Mellitus 284
 Respiratory Diseases 284
Perioperative Medication Management 285
 Cardiac 285
 Diabetes Mellitus 286
 Pulmonary Medications 287
Perioperative Considerations 287
 Preoperative Fasting 287
 Latex Allergy 288
 Universal Protocol 288

Intraoperative Considerations 289
 Systemic Anesthetic Agents. 289
 Local Anesthetic Agents 290
 Malignant Hyperthermia. 291

**16 Medical Emergencies and Ocular Adverse Effects
of Systemic Medications 295**

Highlights 295
Introduction 295
Cardiopulmonary Arrest. 296
Syncope 299
Hypoglycemia 300
Shock 300
 Classification 300
 Assessment. 301
 Treatment 301
 Anaphylaxis 302
Seizures and Status Epilepticus 303
Toxic Reactions to Local Anesthetic Agents and Other Drugs 304
 The Opioid Crisis 306
Ocular Adverse Effects of Systemic Medications. 307

Basic Texts. 311
Related Academy Materials 313
Requesting Continuing Medical Education Credit. 315
Study Questions 317
Answer Sheet for Section 1 Study Questions 325
Answers 327
Index 335
