

# Contents

Introduction to the BCSC . . . . .	xv
<b>Objectives . . . . .</b>	<b>1</b>
<b>Introduction . . . . .</b>	<b>3</b>
<b>1 Epidemiology of Cataract . . . . .</b>	<b>5</b>
Highlights . . . . .	5
Introduction . . . . .	5
Cataract Prevalence and Distribution of Subtypes . . . . .	6
Risk Factors for the Development of Cataract. . . . .	7
Cataract Surgery Rate and Outcomes . . . . .	8
<b>2 Anatomy . . . . .</b>	<b>11</b>
Highlights . . . . .	11
Normal Crystalline Lens. . . . .	11
Capsule . . . . .	12
Zonular Fibers . . . . .	13
Lens Epithelium. . . . .	14
Nucleus and Cortex . . . . .	15
<b>3 Biochemistry and Physiology . . . . .</b>	<b>17</b>
Highlights . . . . .	17
Molecular Biology . . . . .	17
Crystallin Proteins . . . . .	17
Membrane Structural Proteins and Cytoskeletal Proteins . . . . .	18
Increase of Water-Insoluble Proteins With Age . . . . .	19
Carbohydrate Metabolism . . . . .	20
Glycolysis and Hexose Monophosphate Shunt. . . . .	20
Sorbitol Pathway . . . . .	21
Oxidative Damage and Protective Mechanisms . . . . .	23
Lens Physiology . . . . .	24
Maintenance of Lens Water and Cation Balance . . . . .	25
Accommodation and Presbyopia . . . . .	26
<b>4 Embryology and Developmental Defects. . . . .</b>	<b>29</b>
Highlights . . . . .	29
Normal Development of the Lens . . . . .	29
Lens Placode . . . . .	29
Lens Pit . . . . .	30
Lens Vesicle . . . . .	31
Primary Lens Fibers and the Embryonic Nucleus . . . . .	32

Secondary Lens Fibers . . . . .	32
Lens Sutures and the Fetal Nucleus . . . . .	32
Tunica Vasculosa Lentis . . . . .	33
The Zonule of Zinn . . . . .	33
Congenital Anomalies and Abnormalities . . . . .	34
Congenital Aphakia . . . . .	34
Lenticonus and Lentiglobus . . . . .	34
Lens Coloboma . . . . .	36
Mittendorf Dot . . . . .	36
Epicapsular Star . . . . .	37
Peters Anomaly . . . . .	37
Microspherophakia . . . . .	38
Aniridia . . . . .	39
Persistent Fetal Vasculature . . . . .	39
Congenital Cataract . . . . .	40
Developmental Defects . . . . .	46
Ectopia Lentis . . . . .	46
Genetic Contributions to Age-Related Cataracts . . . . .	48
Ectopia Lentis et Pupillae . . . . .	49

<b>5 Pathology . . . . .</b>	<b>51</b>
Highlights . . . . .	51
Age-Related Lens Changes . . . . .	51
Nuclear Cataracts . . . . .	51
Cortical Cataracts . . . . .	54
Posterior Subcapsular Cataracts . . . . .	55
Cataract Grading and Classification . . . . .	58
Drug-Induced Lens Changes . . . . .	60
Corticosteroids . . . . .	60
Phenothiazines . . . . .	60
Miotics . . . . .	61
Amiodarone . . . . .	61
Statins . . . . .	61
Tamoxifen . . . . .	62
Trauma . . . . .	62
Contusion . . . . .	63
Perforating or Penetrating Injury . . . . .	64
Intraocular Procedures . . . . .	64
Intralenticular Foreign Bodies . . . . .	66
Radiation . . . . .	66
Metallosis . . . . .	67
Electrical Injury . . . . .	68
Chemical Injuries . . . . .	69
Metabolic Cataract . . . . .	69
Diabetes Mellitus . . . . .	69
Galactosemia . . . . .	70

Hypocalcemia . . . . .	71
Wilson Disease . . . . .	71
Myotonic Dystrophy. . . . .	72
Effects of Nutrition, Alcohol, and Smoking. . . . .	73
Cataract Associated With Uveitis . . . . .	73
Lens Changes With Hyperbaric Oxygen Therapy . . . . .	74
Pseudoexfoliation Syndrome . . . . .	74
Cataract and Atopic Dermatitis . . . . .	75
Phacoantigenic Uveitis . . . . .	76
Lens-Induced Glaucoma. . . . .	77
Phacolytic Glaucoma . . . . .	77
Lens Particle Glaucoma . . . . .	77
Phacomorphic Glaucoma . . . . .	77
Glaukomflecken . . . . .	77
Ischemia . . . . .	78
Cataracts Associated With Degenerative Ocular Disorders . . . . .	78
<b>6 Evaluation and Management of Cataracts . . . . .</b>	<b>79</b>
Highlights . . . . .	79
Introduction . . . . .	79
Clinical History: Signs and Symptoms . . . . .	80
Decreased Visual Acuity . . . . .	80
Glare and Altered Contrast Sensitivity . . . . .	80
Myopic Shift . . . . .	81
Monocular Diplopia or Polyopia . . . . .	81
Decreased Visual Function . . . . .	81
Nonsurgical Management . . . . .	82
Indications for Surgery . . . . .	82
Preoperative Evaluation . . . . .	84
General Health of the Patient . . . . .	84
Pertinent Ocular History. . . . .	85
Social History . . . . .	86
Measurements of Visual Function. . . . .	86
Visual Acuity Testing . . . . .	86
Refraction . . . . .	87
Glare Testing . . . . .	87
Contrast Sensitivity Testing. . . . .	87
External Examination . . . . .	88
Motility and Ocular Dominance. . . . .	88
Pupils . . . . .	88
Slit-Lamp Examination . . . . .	89
Conjunctiva . . . . .	89
Cornea . . . . .	89
Anterior Chamber and Iris . . . . .	90
Crystalline Lens . . . . .	90
Limitations of Slit-Lamp Examination . . . . .	90

Fundus Evaluation . . . . .	91
Ophthalmoscopy . . . . .	91
Optic Nerve . . . . .	91
Fundus Evaluation With Opaque Media . . . . .	91
Special Tests . . . . .	92
Potential Acuity Estimation . . . . .	92
Visual Field Testing . . . . .	92
Assessment of Corneal Endothelial Function . . . . .	92
Objective Tests of Macular Function . . . . .	93

**7 Preoperative Considerations for Cataract Surgery . . . . 95**

Highlights . . . . .	95
Preoperative Measurements . . . . .	95
Axial Length . . . . .	96
Corneal Power . . . . .	97
Effective Lens Position . . . . .	98
IOL Power Determination . . . . .	99
Classic Regression Formula . . . . .	99
IOL Calculation . . . . .	99
Preventing Errors in IOL Calculation, Selection, and Insertion . . . . .	102
Improving Outcomes . . . . .	102
Patient Preparation and Informed Consent . . . . .	102
Anesthesia for Cataract Surgery . . . . .	103
Antimicrobial Therapy . . . . .	106
Before Surgery . . . . .	106
In Surgery . . . . .	106
After Surgery . . . . .	108
Ophthalmic Viscosurgical Devices . . . . .	108
Physical Properties . . . . .	109
Uses of Ophthalmic Viscosurgical Devices . . . . .	110
Surgical Checklist . . . . .	111

**8 Phacoemulsification for Cataract Extraction . . . . . 113**

Highlights . . . . .	113
Introduction . . . . .	113
Instrumentation . . . . .	114
Key Concepts and Advances in Phaco Power Delivery . . . . .	115
Phaco Tip . . . . .	115
Pulse and Burst Modes . . . . .	115
Torsional and Elliptical Phacoemulsification . . . . .	116
Irrigation . . . . .	118
Aspiration Pumps . . . . .	118
Peristaltic (or Flow) Pumps . . . . .	119
Venturi (or Vacuum) Pumps . . . . .	120
Outline of the Phacoemulsification Procedure . . . . .	121
Eye Marking and Time-Out . . . . .	121
Exposure of the Globe . . . . .	121

Paracentesis . . . . .	121
Clear Corneal Incision . . . . .	122
Scleral Tunnel Incision . . . . .	124
Continuous Curvilinear Capsulorrhexis . . . . .	125
Hydrodissection . . . . .	126
Hydrodelineation . . . . .	127
Nucleus Rotation . . . . .	127
Nucleus Disassembly and Removal . . . . .	127
Location of Emulsification . . . . .	129
Techniques of Nucleus Disassembly . . . . .	129
Irrigation and Aspiration . . . . .	133
Insertion of the Intraocular Lens . . . . .	134
After IOL Insertion . . . . .	137
Alternative Technologies for Cataract Extraction . . . . .	137
Laser Photolysis . . . . .	137
Femtosecond Laser-Assisted Cataract Surgery . . . . .	138
Outcomes of Cataract Surgery . . . . .	139
<b>9 Optimizing Refractive Outcomes of Cataract Surgery . . . . .</b>	<b>143</b>
Highlights . . . . .	143
Intraocular Lenses . . . . .	143
Intraocular Lens Characteristics . . . . .	144
Presbyopia Correction . . . . .	146
Pseudophakic Monovision . . . . .	146
Accommodating IOLs . . . . .	146
Multifocal IOLs . . . . .	147
EDOF IOLs . . . . .	148
Other Presbyopia-Correcting IOLs . . . . .	150
Postoperative Adjustment of Intraocular Lenses . . . . .	150
Modification of Preexisting Astigmatism . . . . .	150
Corneal Relaxing Incisions . . . . .	151
Toric IOLs . . . . .	154
<b>10 Intraoperative Challenges in Cataract Surgery . . . . .</b>	<b>157</b>
Highlights . . . . .	157
Introduction . . . . .	157
Corneal and Conjunctival Complications . . . . .	158
Self-Limited Intraoperative Complications . . . . .	158
Incision and Wound Complications . . . . .	158
Descemet Membrane Detachment . . . . .	161
Anterior Segment Complications . . . . .	161
Intraoperative Floppy Iris Syndrome . . . . .	161
Femtosecond Laser-Associated Miosis . . . . .	163
Lens-Iris Diaphragm Retropulsion Syndrome . . . . .	164
Iridodialysis and Iris Trauma . . . . .	164
Cyclodialysis . . . . .	165

Intraoperative Shallow or Flat Anterior Chamber . . . . .	166
Anterior Capsule Tears . . . . .	167
Posterior Capsular Rupture . . . . .	169
IOL Placement with Posterior Capsule Rupture . . . . .	172
Hemorrhage . . . . .	173
Retrobulbar Hemorrhage . . . . .	173
Intraoperative Hemorrhage . . . . .	174
Suprachoroidal Effusion or Hemorrhage . . . . .	174
Expulsive Suprachoroidal Hemorrhage . . . . .	175

## 11 Postoperative Surgical Course

<b>and Complications . . . . .</b>	<b>177</b>
Highlights . . . . .	177
Introduction . . . . .	177
Corneal Complications . . . . .	178
Corneal Edema . . . . .	178
Corneal Melt . . . . .	180
Induced Astigmatism . . . . .	181
Other Anterior Segment Complications . . . . .	182
Epithelial or Fibrous Ingrowth . . . . .	182
Shallow or Flat Anterior Chamber . . . . .	183
Elevated IOP . . . . .	184
Hyphema . . . . .	185
Retained Lens Fragments . . . . .	186
Vitreous Prolapse in the Anterior Chamber . . . . .	187
Postoperative IOL Complications . . . . .	187
Decentration and Dislocation . . . . .	187
Pupillary Capture . . . . .	192
Capsular Block Syndrome . . . . .	193
Uveitis-Glaucoma-Hyphema Syndrome . . . . .	194
Pseudophakic Bullous Keratopathy . . . . .	195
IOL Opacification . . . . .	196
IOL Glare and Dysphotopsia . . . . .	197
Unexpected Refractive Results . . . . .	198
Capsular Opacification and Contraction . . . . .	199
Posterior Capsule Opacification . . . . .	199
Anterior Capsule Fibrosis and Phimosis . . . . .	200
Nd:YAG Laser Capsulotomy . . . . .	201
Diplopia . . . . .	204
Inflammatory and Infectious Complications . . . . .	205
Postoperative Uveitis . . . . .	205
Toxic Anterior Segment Syndrome . . . . .	206
Endophthalmitis . . . . .	208
Retinal Complications . . . . .	210
Cystoid Macular Edema . . . . .	210
Hemorrhagic Occlusive Retinal Vasculitis . . . . .	213
Retinal Light Toxicity . . . . .	213

Delayed Suprachoroidal Hemorrhage . . . . . 213  
 Retinal Detachment . . . . . 214

**12 Preparing for Cataract Surgery in Special Situations . . . . . 215**

Highlights . . . . . 215

Psychosocial Considerations . . . . . 215

    Claustrophobia . . . . . 215

    Neurocognitive and Neurodevelopmental Disorders . . . . . 216

    Patient Communication During Eye Surgery . . . . . 216

Systemic Considerations . . . . . 216

    Medical Status . . . . . 216

    Anticoagulation Therapy or Bleeding Disorders . . . . . 218

External Ocular Abnormalities . . . . . 219

    Blepharitis and Acne Rosacea . . . . . 219

    Keratoconjunctivitis Sicca . . . . . 219

    Mucous Membrane Pemphigoid . . . . . 220

    Exposure Keratitis and Cranial Nerve VII Palsy . . . . . 220

Corneal Pathologies . . . . . 220

    Corneal Disease . . . . . 220

    Cataract and Keratoplasty . . . . . 221

    Cataract Following Keratoplasty . . . . . 223

    Cataract Following Refractive Surgery . . . . . 223

Compromised Visualization of the Lens . . . . . 224

    Small Pupil . . . . . 224

    Poor Red Reflex . . . . . 225

Altered Lens and Zonular Anatomy . . . . . 226

    Intumescent Cataract . . . . . 226

    Advanced Cataract . . . . . 227

    Iris Coloboma and Corectopia . . . . . 228

    Posterior Polar Cataract . . . . . 228

    Zonular Dehiscence With Lens Subluxation or Dislocation . . . . . 229

    Pseudoexfoliation Syndrome . . . . . 231

    Cataract in Aniridia . . . . . 231

Conditions Associated With Extremes in Axial Length . . . . . 232

    High Myopia . . . . . 232

    High Hyperopia and Nanophthalmos . . . . . 232

    Hypotony . . . . . 233

Glaucoma . . . . . 233

    Assessment . . . . . 233

    Cataract Surgery in an Eye With a Functioning Filter . . . . . 235

    Combining Minimally Invasive Glaucoma Surgery  
         With Cataract Surgery . . . . . 235

Uveitis . . . . . 236

Retinal Conditions . . . . . 237

    Retinal Disease . . . . . 237

    Cataract Following Pars Plana Vitrectomy . . . . . 238

    Cataract With Intraocular Silicone Oil . . . . . 238

Ocular Trauma . . . . .	239
Ocular Assessment . . . . .	239
Visualization During Surgery . . . . .	239
Inflammation . . . . .	239
Retained Foreign Matter . . . . .	239
Cataract in an Eye With Damage to Other Ocular Tissues . . . . .	240
Removal of Traumatic Cataract . . . . .	240
Vision Rehabilitation . . . . .	241
IOL Selection After Trauma . . . . .	241
Appendix: Historical Development of Cataract Surgery and Non-Phacoemulsification Cataract Surgery Techniques . . . . .	243
Additional Materials and Resources . . . . .	255
Requesting Continuing Medical Education Credit . . . . .	257
Study Questions . . . . .	259
Answers . . . . .	265
Index . . . . .	271
